The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance since the above time period may be lower or higher than the performance quoted. As of 1-29-10, the Fund's annual operating expense ratio is 1.00%. In addition to the reimbursement required under the investment advisory agreement to reimburse the Fund for expenses in excess of 2.00% of the Fund's average daily net assets, Fiduciary Management will voluntarily reimburse the Fund for expenses in excess of 1.00% of the Fund's average daily net assets.
